The article describes basic Canvas grading capabilities. There are advanced features that may also be of interest.

Before You Start
You will need a Canvas site containing graded assignments.

Table of Contents
- General Information
- Using the Gradebook
- Using SpeedGrader
- Downloading Assignments
- Hiding/Revealing Grades
- Exporting and Importing
- Setting a Late Policy
- Arranging, Sorting, and Filtering
- Grading Offline
- Questions?

General Information
There are many features you can use in grading student work.

Using the Gradebook
The Gradebook lets you enter and post assignment scores for your students, and allows you to...

Using SpeedGrader
SpeedGrader is focused on grading and feedback on submissions, allowing you to...

Downloading Assignments
You can download submitted work individually or in a single batch.
Hiding/Revealing Grades
Canvas sites are configured to hide all grades unless they are revealed, or posted. (This was formerly known as muting.)

Exporting and Importing
You can export and import to the gradebook.

Setting a Late Policy
You can now apply automatic grading rules to missing and late submissions.

Arranging, Sorting, and Filtering
You can arrange, sort, and filter your gradebook in a number of ways.

Grading Offline
You can grade submissions offline and then upload the results to Canvas.

At Wharton, the Canvas Gradebook is where assignment scores can be entered; however, final course grades are submitted through Instruction Center Grade Submission.
