Terminals are available for accessing the Bloomberg Financial Markets data services.

Notice: During the current extended campus closure, in order to provide access to this on-site resource, Lippincott Library is working to provide students with remote access to Bloomberg terminal services. For information about accessing Bloomberg remotely at Lippincott, please email: lippincott@wharton.upenn.edu.

The Bloomberg terminals are solely for the use of accessing the Bloomberg Financial Markets data services. The terminals provide students with real-time data on the market, news, and the world.

These terminals are not typical Wharton Lab computers; they do not offer the same applications.

Logging In

Logging into the Bloomberg terminal differs from the way you log into other Wharton public computers. Login information is available at the Bloomberg terminals.

Location of Bloomberg Terminals

Huntsman Hall

- Forum Level, across from the entrance to the F75 Computer Labs.

Does not support the Bloomberg Excel plugin.

Lippincott Library

- Yablon Financial Resources Lab (Room 244)

Does support the Bloomberg Excel plugin

Alternatives

S&P Capital IQ offers an alternative to the Bloomberg Terminals. Capital IQ is a research tool available to full-time MBA students. It provides students with in-depth reports of information about the financial, analytical, and research of companies, markets, and industries. The S&P Capital IQ Excel Plug-in is not available on the computers in Huntsman Hall.

For more information on the Capital IQ, visit the Library's FAQ
Please refer to the WRDS Account Guide in creating an account.
