

Troubleshooting WiFi (AirPennNet) Issues

Last Modified on 08/29/2023 4:21 pm EDT

Returning to campus after being away for several months? You may need to [Reconnect your University-owned and managed Windows computer to AirPennNet](#).

This article will help you diagnose & troubleshoot any issues you might be having with Penn's WiFi network, AirPennNet. Please see below for a list of common problems & solutions. For more information and troubleshooting steps, please see the [University's Tips](#).

Before You Start

You will need one or more of the following before you can complete this task:

- PennKey credentials
- Administrative rights to your device

Table of Contents

- [General Connectivity Issues](#)
- [Android Issues](#)
- [MacOS Issues](#)
- [iOS \(iPhone, iPad, etc\) Issues](#)

AirPennNet-Guest is NOT recommended for students, faculty and staff who want to connect to the wireless network. This option is designed for guests at the University and has limited bandwidth.

General Connectivity Issues

AirPennNet Status

Having trouble connecting to AirPennNet? Check our [status page](#) to make sure it isn't a widespread problem.
