Last Modified on 01/11/2024 3:26 pm EST

The following directions intend to guide you on how to setup forwarding from your Wharton Gmail (and Alumni Forwarding Address) to a personal address.

Before You Start

You will need the following before you can complete this task:

- An active personal Email

Note: Forwarding your email comes with an increased risk of deferred (delayed) messages and message bounces. For more information, please see our [Common Problems Forwarding to Gmail](#) article.
