

Canvas Student Mobile Apps

Last Modified on 07/30/2021 11:59 am EDT

Before You Start

You need the following to use the Canvas Student mobile app:

- An active PennKey
- A camera-equipped mobile device running iOS or Android (for the QR code feature)
- Membership in a course site on Penn Canvas

Canvas Apps

The mobile apps provide quick access to most parts of a Canvas course site or group sub-site, including viewing and downloading of Files as well as view-only access (no saving or downloading) for reading Study.Net Materials. They contain much of the same functionality as the full browser version of Canvas.

If a Canvas feature is not yet available in the mobile version, switch to a mobile browser on your device, preferably Chrome. You might also choose to [subscribe to your Calendar Feed with your preferred mobile calendar app](#).

Authorizing this App for Penn Canvas

Choose between two alternatives are available to authorize this app to work with your account and Penn Canvas user record: **Authorization via Login** or **QR code**.

Authorization via Login

This method works anywhere you can access mobile data or Wi-Fi, provided you meet the **Before You Start** requirements above and have already installed the Canvas Student app:

Authorization via QR Code

This quick method doesn't require typing on your mobile device, but it does require having both your camera-equipped mobile device and *another* device -- your laptop or other computer with a display screen showing Penn Canvas in a web browser.

Using more than one Canvas Platform?

Most, but not all, of Penn's students use the same Canvas platform. **JD/MBA students and students taking another school's courses on different Canvas platforms** may want to take advantage of multi-user login capability, which

will give you a “Profile” for each Canvas platform you use. Here are instructions for multi-user logins:

- Switch to another account in the Canvas app on an **iOS device**.
- Switch to another account in the Canvas app on an **Android device**.
