This article provides guidance for students with new devices needing to reconfigure Two-Step for PennKey and Google accounts.

**Faculty, Staff, and PhD Students**

Use the [this page](#) for self-service directions, or contact your IT Support Representative for the best option to enroll your new device.

**Lost Device**

If you no longer have access to your original two-step device (i.e., lost, stolen, or broken), then please follow the instructions in our [Two-Step: Account Recovery article](#).

---

**Before You Start**

You may need the DUO Mobile app installed before you follow the instructions below.

---

Two-Step Verification is an increasingly important aspect of account security. However, sometimes, it might not be clear what to do if you have a new phone and need to update your Two-Step settings.

- Google
- Questions?

---

**PennKey**

1. On your laptop or desktop, navigate to [Duo Device Management Portal](#).
2. Log in with your PennKey credentials
3. Select a login method by clicking Other options
   1. Do not use Hardware Token as an option
4. Enter the 6 digit code provided by the login method
5. Choose Add a device.
6. Follow the instructions to install Duo Mobile on your new device.
7. Open Duo Mobile and either:
   - Approve the push notification OR
   - Enter the 6 digit code
8. Congrats-- Two-Step verification is now set up on your new device!

---

**Google**

---
1. On a laptop or desktop, navigate to https://myaccount.google.com
2. Log in with your Google@Wharton credentials
3. Click the Security tab on the left
4. Scroll down to Signing in to Google
5. Click 2-Step Verification
6. Sign in again with your Google@Wharton credentials
7. Add your new device to your account
   - Click Add Phone under Voice or text message
   - Click Set Up under Authenticator App
8. Follow the instructions to enroll your new device
