Controlling playback

There are a number of ways in which you can control the playback of the recording.

1. **Player controls.** Change things like the quality and speed of the playback shown in the viewing panes.
2. **Switch viewing panes.** Switch back and forth between which video is being shown in the large and small viewing panes.
3. **Download the recording.**
4. **Make Discussion comments, Notes, or Bookmarks in the recording.**

If any of these features are not visible, you do not have the ability to use them.

Troubleshooting

Class Recordings doesn't give you access to a page with videos.

It's possible that your login has timed out. Try **logging out of Canvas**, logging back in, and then select **Class Recordings**.

Recording you want is not visible.

Wait a little while. With occasional exceptions, recordings are usually available one hour after class. If the recording is not available after 24 hours, the teaching team may not have enabled your access.

Playback is not streaming well.

Try lowering the quality of the playback. If that doesn't work, move to a location with a more stable, faster network connection.
