Inviting a Guest Speaker to a Video Conference

Last Modified on 12/15/2025 5:06 pm EST

We are aware that Zoom is rolling out changes to its interface that may affect some of our directions. We are working on updating these pages, but in the meantime you can visit [Zoom's Release Announcement](#). Please [reach out to Wharton Computing](#) if you have any questions.

These directions are for faculty. They work whether you're creating a new video conference in Canvas or editing a pre-existing meeting on the video conference tab of a Canvas Site.

Before You Start

Guest Speakers from Outside Penn: If a guest speaker from outside Penn needs to join a Zoom created through Canvas, they must be added as an "Authentication Exception." See [Guests from Outside Penn](#) below for more details.

Inviting a Guest to a Video Conference Scheduled within Canvas

It is easy to share your video conference information with a guest speaker right from Canvas. This article assumes you are using Zoom for your video conference.

Keep in mind that only the meeting owner can edit a meeting.

If you've scheduled your Zoom meeting within Canvas it is very easy to get an invitation link to share with a guest:

Inviting a Guest Outside of Canvas

[?](#)Top

You can gather the information needed to invite your guest speaker to your video conference scheduled via

upenn.zoom.us:

Zoom meetings you scheduled via Canvas will also show up listed in upenn.zoom.us.

Guests from Outside Penn

 [Top](#)

If a guest speaker from outside Penn needs to join a Zoom created through Canvas, they must be added as an "Authentication Exception," since they will not have a Pennkey to log into Zoom.

Don't use your Personal Meeting ID for these meetings. You will not be able to add authentication exceptions to meetings that use your personal meeting ID.

Best Practices

 [Top](#)

Following these best practices will help ensure a trouble-free guest experience.
