

Exams for Remote Instruction - Students

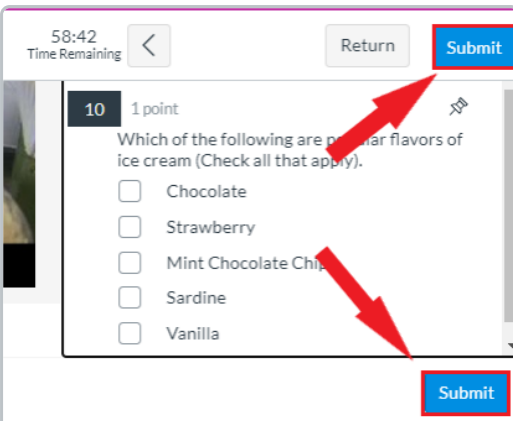

Last Modified on 04/28/2020 12:02 pm EDT

Preparing to Take an Exam on Canvas

- **Computer/Device.** Use a device that meets [Canvas's basic computer specifications](#). Always make sure to use the most up-to-date versions.
- **Browser.** Use one of [Canvas's supported web browsers](#). For best performance, we recommend the most up-to-date versions of Chrome or Firefox.
- **Internet.** Use a hard-wired ethernet connection or a WiFi network with a very strong signal. If you're taking a timed Canvas exam and lose your connection, the timer will continue to run.
- **Laptop v. Mobile.** Use a laptop or desktop computer. Taking exams on small tablets or phones can only provide a limited experience.
- **Notifications (and other Distractions).** Close or disable notifications, pop-ups blockers, and other applications. These may be a source of distraction and can interfere with the exam.

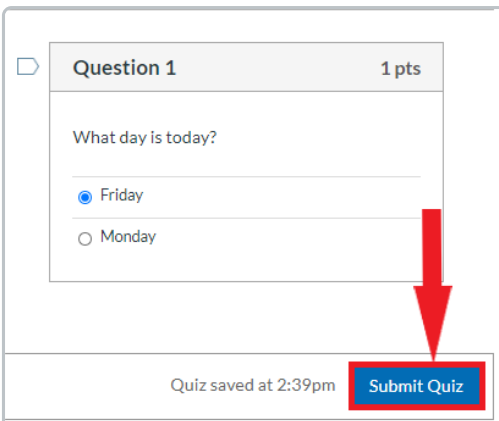

Taking an Exam on Canvas

- **Gather Materials.** Make sure you have all the materials your professor has specified before starting the exam.
- **Timed Exams:**
 - **Only begin a timed exam when you're ready to complete the exam.** The timer continues to count down regardless of whether you are actively taking the exam or not. Remember to click **Submit** before the time expires.
- **Untimed Exams:**
 - For exams without a time limit, **close the browser window when you aren't working on it.** This will prevent you from losing any responses if Canvas automatically logs you out after a period of inactivity. You can always re-open the exam and pick up where you left off.
 - **Submit your exam before the due date.** If you don't, you could get locked out of the exam and need to contact your professor for help.
- **Browser Windows.** Open the exam in only one browser window. Using multiple windows might make you overwrite your answers.
- **Check before Submitting.** Only click Submit when you have finished the exam. **You cannot reopen submitted exams.**

The screenshot shows a Canvas exam interface. At the top left, a timer displays "58:42 Time Remaining". To its right are "Return" and "Submit" buttons. The main content area shows a question worth 10 points (1 point per answer) asking for popular ice cream flavors. The options are Chocolate, Strawberry, Mint Chocolate Chip, Sardine, and Vanilla. At the bottom right of the question area, there is a "Submit" button. A red arrow points from the top "Submit" button to the bottom "Submit" button.

Your exam will most likely display a "Submit" button at the top and bottom right of the screen. Click either one to submit your exam.

The screenshot shows a Canvas exam interface for a single question worth 1 point. The question asks "What day is today?". The options are Friday (selected) and Monday. At the bottom right of the question area, there is a "Submit Quiz" button. A red arrow points from the "Submit Quiz" button to the text below.

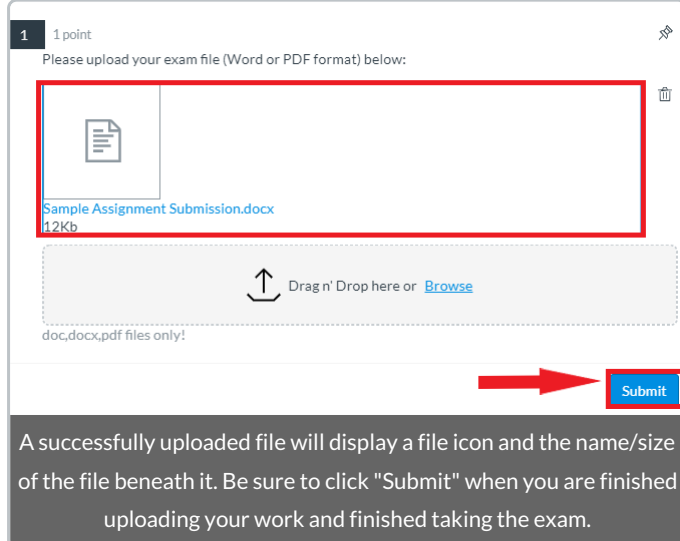

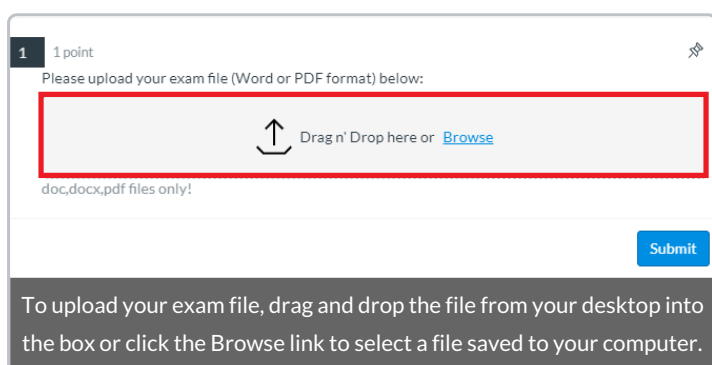

Alternatively, your exam may display a single "Submit Quiz" button at the bottom right of the screen.

Taking an Exam that Requires a Scanned PDF

If your exam requires you to scan handwritten responses, you can use your phone or tablet to create a PDF if you don't have a scanner. You can use an app like **Genius Scan**, the native **Notes app for iOS**, or another app of your choosing. Once you have your app, follow this general process:

1. Write your exam answers clearly using dark lettering. If you are using a blank piece of paper to write responses, clearly label your answers with the question numbers.
2. Be sure that you have the app set to scan multiple pages and to output to a PDF.
3. Scan your pages on a flat, well-lit surface. Steady your hands as much as possible to avoid blurred scans.
4. Review your scans to make sure that they're clear, all in one document, and in the order you intended. If not, re-scan them.
5. Email the PDF to yourself, download the file on your computer, and upload it to the Canvas exam.

In newer versions of Canvas exams, the file upload question will appear as follows:

In older versions of Canvas exams, the file upload question will look slightly different:

Question 2 1 pts

Please upload your completed exam file as a Word or PDF file.

Upload

In older versions of exams, click "Choose a File," then select the file from your computer.

Question 2 1 pts

Please upload your completed exam file as a Word or PDF file.

Upload ×

Your file has been successfully uploaded.

Quiz saved at 5:26pm

After uploading your file, you will see the name of the file and a message that says "Your file has been successfully uploaded." Be sure to click "Submit Quiz" when you are finished uploading your file and taking the exam.

Leave Extra Time. We suggest that you give yourself **15 minutes** to complete this process.

Getting Help

If you encounter any technical issues while taking an exam, contact [Wharton Computing Student Support](#)
