

Classroom PC Applications

Last Modified on 08/08/2021 8:46 am EDT

Wharton's Public Computing department provides access to applications and software suites for use by students, staff, and faculty. The applications are available to any Wharton affiliated user in the student labs, workstations, classrooms, supported event locations, and virtually through Wharton's VM portal. Licensed or free software can be installed by request for faculty events and classes in the locations listed above with proper notice. Requests can be submitted by faculty Strategic Partners (SPs).

Before you start:

You must have an active Pennkey account.

Public Computer Locations

- In-person access is available in Huntsman Hall, Steinberg Hall-Dietrich Hall, Lauder Institute, Lippincott Library, Colonial Penn Center and Robbins Hall.

Check hours of building operation for availability

- [Virtual access instructions](#)
