

# Sharing Your iPad or iPhone Screen with Zoom

Last Modified on 08/03/2022 2:09 pm EDT

Zoom on a Mac or PC allows you to **share the screen of an iPad, or iPhone**, with your meeting. This enables you to use your iPad as a whiteboard that your fellow meeting attendees can see, or you can show a PowerPoint presentation from your iPad and use the touchscreen to annotate as you present.

The way you set up your sharing will depend on whether you are using a home network or whether you are on campus, using Penn's wifi network AirPennNet. Choose the directions below that apply to your use case.

## Table of Contents

- [Sharing iDevices on AirPennNet \(Campus Wifi\)](#)
- [Sharing iDevices using a Mac on a Home Network](#)
- [Sharing an iDevice on a Home Network from a PC](#)

## Sharing iDevices on AirPennNet (Campus Wifi)

Because of security features in place, the AirPennNet wifi network will not allow Zoom on a Mac or PC to share the screen of an iPad or iPhone. Instead, those on campus can:

- Open Zoom on an iPad or iPhone and then share directly from that device.
- Use the "Wired" option detailed below; this is available for Macs only.

## Sharing iDevices using a Mac on a Home Network

With Zoom for the Mac, you have two options for sharing your iPad/iPhone screen: wirelessly or via a wire.

### Wirelessly

Before you attempt to share your iPad's screen, there are a couple of things to be aware of:

- Your iPad/iPhone and PC must be on the same network.
- Zoom client for Windows **3.5.27094.0918** or later.
- This only works with the following iOS devices: iPhone 4 or later; iPad; iPad mini, 4th generation or later

## Apps

[^Top](#)

Sharing your iPad/iPhone screen allows you to use your favorite apps to teach. A couple of popular apps for whiteboarding and annotating include:

- **Notability** - A full-featured app that allows you to treat your iPad like a whiteboard.
  - **Microsoft PowerPoint** - PowerPoint on the iPad supports a few options for annotating your presentation.
-
