

# All about New Quizzes

Last Modified on 05/13/2025 1:02 pm EDT

As of August 30, 2024, the place for entering due and availability dates while editing assignments or quizzes has **returned to its original location in Canvas**.

It's also possible to set due or availability dates *without* editing the quiz. Use the **Assign To** button which currently appears to the left of the **Edit** button on any assignment or quiz page:

A similar **Assign To** choice appears in the **options (three dots) drop-down menu** for each quiz listed on the Quizzes tab.

Canvas's New Quizzes offers benefits, such as printing and one-time accommodation entry per course, which improve upon the original feature set for Classic Quizzes.

## Before You Start

You will need a Canvas site.

**Do NOT use New Quizzes if you:**

- Prefer to bulk-download all student submissions to file-upload questions
- Have questions with no correct answer, such as for a survey

Please use the legacy Classic Quizzes tool instead if you need either of these features.

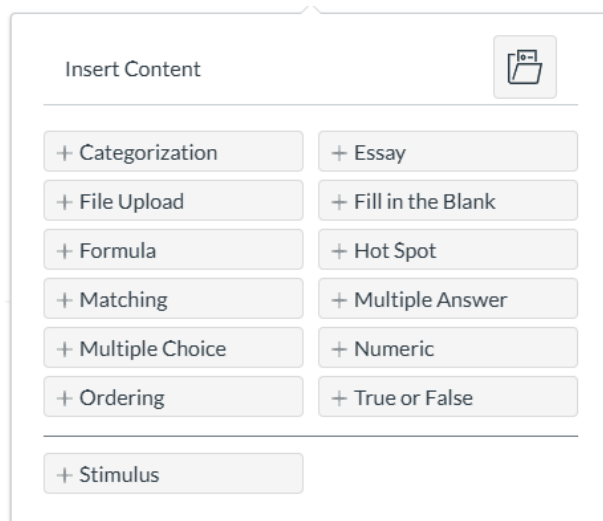

## Table of Contents

- Creating a Quiz
- Quiz Settings
- Question Types
- Item Banks
- Exams with File Downloads
- Publish the Quiz
- Viewing and Grading Online Quizzes
- Regrading Questions
- Releasing Scores
- Enabling Additional Attempts for Students
- Questions?

## Creating a Quiz

To create a new quiz...

## Question Types

[Top](#)

Your quiz can include a mix of automatically and manually graded questions.

[Read More](#)

## Item Banks

[Top](#)

Use Item Banks to pull all questions or a specific number of questions randomly from a pool. This is a good way to add variety to the exam and/or keep similar questions together.

[Read More](#)

## Exams with File Downloads

[Top](#)

Use these instructions if you need to share a link to an exam file that students can access only during the exam.

[Read More](#)

## Publish the Quiz

[Top](#)

Before you **publish** the quiz, be sure to:

- **Add availability dates** so students cannot access the quiz until the start time.
- **Review the quiz settings** to ensure that **Restrict Student Result View** is enabled and that other exam settings are correct.
- **Preview the quiz** to view it as students will.
- **Permit additional time** by choosing **Moderate** to the right of the student's name. Under **Time adjustments**, select **Give additional time**, enter the extended time, and close the tab.

[Top](#)

## Viewing and Grading Online Quizzes

- Use **Moderate** to view student submissions, add more time or attempts for individual students, and to reopen a completed quiz.
- Add a score for any manually graded questions in **SpeedGrader**. (Final quiz scores cannot be directly edited in the Gradebook.)

[Top](#)

## Regrading Questions

You can regrade any automatically graded question, but this should be done only **after all students have finished taking the quiz**. When you regrade a question for one student, **the change will be applied to all** students who received that question.

For courses using Blueprint templates, the regrade will need to be applied in each section/child site, as regrades cannot be applied from the template.

If you are regrading a question contained in an Item Bank, consider editing the question in the bank after regrading in Speedgrader so that the future iterations of the quiz will have the updated version.
