

All about New Quizzes

Last Modified on 09/18/2023 5:40 pm EDT

As of July 20, 2024, the location for entering due and availability dates for assignments and quizzes has **moved to a new panel** which slides out from the right side of your browser after you click:

1. The **Assign To** button which now appears to the left of the **Edit** button on any assignment or quiz page:

2. The **Manage Assign To** link, available when you've already begun editing an assignment or a quiz, at bottom:

3. Or the **Assign To** command menu choice, available under the "three-dots" button for items in the Assignments or Quizzes tab.

Canvas's New Quizzes offers benefits, such as printing and one-time accommodation entry per course, which improve upon the original feature set for Classic Quizzes.

Before You Start

You will need a Canvas site.

Creating a Quiz

To create a new quiz...

[Read More →](#)

Question Types

[^Top](#)

Your quiz can include a mix of automatically and manually graded questions.

[Read More →](#)

Item Banks

[^Top](#)

Use Item Banks to pull all questions or a specific number of questions randomly from a pool. This is a good way to add variety to the exam and/or keep similar questions together.

[Read More →](#)

Exams with File Downloads

[^Top](#)

Use Classic Quizzes if you need to share a link to an exam file that students can access only during the exam. If you need to use New Quizzes instead, you can create a link to the exam file by using the following instructions.

[Read More →](#)

Publish the Quiz

[^Top](#)

Before you **publish** the quiz, be sure to:

- **Add availability dates** so students cannot access the quiz until the start time.
- **Review the quiz settings** to ensure that **Restrict Student Result View** is enabled and that other exam settings are correct.
- **Preview the quiz** to view it as students will.
- **Permit additional time** by choosing **Moderate** to the right of the student's name. Under **Time adjustments**, select **Give additional time**, enter the extended time, and close the tab.

Viewing and Grading Online Quizzes

[^Top](#)

- Use **Moderate** to view student submissions, add more time or attempts for individual students, and to reopen a completed quiz.
- Add a score for any manually graded questions in **SpeedGrader**. (Final quiz scores cannot be directly edited in the Gradebook.)

Regrading Questions

[^Top](#)

You can regrade any automatically graded question, but this should be done only *after* all students have finished taking the quiz. When you regrade a question for one student, **the change will be applied to all** students who received that question.
