

# Grammarly for Education

Last Modified on 03/20/2025 8:57 am EDT

The University has partnered with **Grammarly**, an online writing tool, to bring a pilot of **Grammarly for Education** to students, faculty, and staff. Grammarly for Education checks your grammar, spelling, punctuation, and style as you write and offers suggestions in non-intrusive ways.

## Before you start:

You must have an active student, faculty, or staff affiliation and a valid PennKey in order to use the University's Grammarly for Education service.

As of March 2025, Penn's Grammarly for Education is still a pilot program. For more information, see ISC's **Grammarly Pilot User Guide**.

Grammarly for Education leverages **Generative AI** features to help jumpstart your writing process, including auto-citations and guardrails to preserve academic integrity.

Grammarly for Education is available as:

- **A browser extension**
- **Web-based service**
- **Desktop app (Mac, Windows)**
- **Mobile device keyboards**

**Note:** While Grammarly meets the University's high standards for data privacy for "low" and "medium" risk data, HIPAA usage is pending additional reviews by Penn Medicine Privacy and the Office of Audit, Compliance, and Privacy.

**Generally, University data classified as "high" (including PII, PCI, and HIPAA) is not permissible in Grammarly.**

If you're interested in using Grammarly with HIPAA data, please contact the **Wharton Information Security Office**.
