

Class Recording Permissions (For Faculty)

Last Modified on 01/28/2026 11:48 am EST

The Class Recordings Permissions tab in Canvas is a standalone app to help you manage access to your class recordings.

Before You Start

You will need the following before you can complete this task:

- Canvas Site
- Class Recordings Tab
- Class Recording Permissions Tab

Students can review [Class Recording Permissions \(for Students\)](#).

Table of Contents

Configuring Class Recording Permissions

You'll need to set your permissions preferences for your Class's recordings. See our video above or follow the step-by-step instructions to configure your class.

Configuration Step-by-Step Instructions

The Class Recordings configuration screen allows you to view and set general settings for classroom recording permissions, such as "No Access," "All Access," or "Restricted Access."

NOTE: Your changes to Configuration will not be saved until you confirm your choices as follows:

- **Save Changes:** Changes will not be saved until you click the **Save** button.
- **Apply to All Sections:** Changes will not impact all sections unless you select "Save & Copy to All Sections."

You will need to make one of the following choices:

- **No Access:** If you choose this, recordings will not be available to students. **This is the default setting**; if you want recordings to be available to students you must pick another option.
- **Restricted Access to Recordings:** This setting allows you to grant students access to recordings selectively. For example, you might grant the entire class access to an exam review session.

- **Allow Student Requests:** When you restrict access to recordings in general, you can still allow students to submit requests for certain videos. In addition, you can:
 - Determine how frequently you receive notifications for these student requests.
 - Automate whether to approve or deny the student requests based on the reason.

- **All Access:** This choice makes recordings available to all students.

Under most circumstances, you should click the **Save & Copy to All Sections** button to save your work so that all sections will have the same policy. Individual Section configurations are available for complex course setups, such as recitations.

Once you've chosen your settings, click the blue **View Permissions** button (Top Right) to navigate to the next page, where you can further refine your configuration choices.

The View Permissions page provides an overview of all the permissions for your Canvas course. All sections will appear by default, sorted by meeting date and request status.

- **Filter** these results with the search bar, or by using any of the dropdown menus underneath the Search bar.
- **Sort** by clicking on the column headings (e.g. Section, Student, Meeting Date, and more).
- **Grant Permissions** in the Action Column. If you have decided to allow student requests, **Approve/Deny** buttons become visible, allowing you to handle those requests. You can remove permissions at any time.
- To add a permission proactively, click the blue **Add Permission** button at the top right of the screen.

Setting Expiration Date

[Top](#)

You can set an **Expiration Date** when granting individual permissions which will automatically remove access at 12 midnight of the selected date (eg 3/4/26 00:00)

To set an Expiration Date, select the Expiration Date box below the “Select Sections” area. Then use the calendar picker to select the date you’d like access to expire. Click Approve Permissions button.
