# Wharton Mailing List Migration Updates April 2026

Last Modified on 04/06/2026 1:27 pm EDT

On April 6, Wharton's mailing list service will move from a Wharton-hosted solution to a Penn-hosted service, allowing Wharton to reduce duplication of effort and cut costs.

## Table of Contents

- [Timeline](#)
- [What's Changing](#)
- [What's Not Changing](#)
- [Questions?](#)

A group of early adopters has been identified and is working with us to help refine our directions and processes. This group of list owners will have their lists migrated early, on **March 9**.

After the migration, the way you approve a message will change slightly.

## Timeline

Target Date	Communication Type and Audience
March 3	Early Adopter identification via email
March 9	Migration of Early Adopter lists
March 9	Announcement to the entire Wharton community (subsequent reminders to follow)
April 6, 1:00 PM	Mailinglist app will close for pre-migration maintenance for <b>ALL USERS</b>
April 6, 2-5 PM	Mailing list migration for <b>ALL MAILING LISTS</b>
April 6, 5-6 PM	Mailinglist app will re-open following "All Clear" from Wharton Computing

## What's Changing

### Moderation and Self-Confirmation

- While you will continue to email your list as normal, ie. [<listname>@wharton.upenn.edu](mailto:<listname>@wharton.upenn.edu), when self-confirming or moderating, you will no longer go through the Mailinglist application. Instead, you will

receive an email prompt for a confirmation from ISC's listserv. Reply to that prompt with **OK** in your message and your email will be released for distribution.

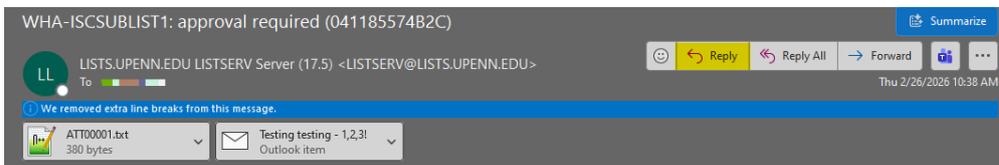

### Self-Confirmation:

For security reasons, the WHA-ISCSUBLIST1 list has been configured to request positive confirmation of messages posted to the list. You must now confirm that the enclosed message did originate from you. **To do so, simply reply to the present message and type "OK"** (without the quotes) in the text of your message.

If this does not work, or if the message did not originate from you, then contact the list owner for assistance.

### Moderation:

This message was originally submitted by [@WHARTON.UPENN.EDU](#) to the WHA-ISCSUBLIST1 list at LISTS.UPENN.EDU.

**You can approve it using the "OK" mechanism, by replying to this message and typing OK in the text of the message.**

You may also ignore it, or repost an edited copy. The message will expire automatically. You do not need to do anything if you just want to discard it.

Please refer to the List Owner's Manual at [https://urldefense.com/v3/http://www.isoftware.com/resources/manuals.asp;!!IBzWLUslRkmgz1VppJpxK9\\_0Bbnq90wW3HaVzXklrPc7HwVX3l-zKhxdn11WkxdpqjDNgUl-iKVd0Pc2cMK3EjKcMC\\_f222SDV-Y\\$](https://urldefense.com/v3/http://www.isoftware.com/resources/manuals.asp;!!IBzWLUslRkmgz1VppJpxK9_0Bbnq90wW3HaVzXklrPc7HwVX3l-zKhxdn11WkxdpqjDNgUl-iKVd0Pc2cMK3EjKcMC_f222SDV-Y$) if you are not familiar with the "OK" mechanism.

## Other Changes

- Postings will appear to come from **sender on behalf of wha-<listname>@lists.isc.upenn.edu**
- Penn's software that runs the mailing lists includes a feature that delays delivery of email the **first time** a subscriber sends to a list. Once migrated, your list will be considered a new list by Penn's listserv, so the first time any of your owners/editors/moderators/subscribers send to the list, there will be a delay of up to 12 minutes. Subsequent submissions will process normally.

## What's Not Changing

[Top](#)

- You can still contact a mailing list as you normally do.
- Users will "reply-all" as normal, which will send to <listname>@wharton.upenn.edu
- Currently, Wharton mailing list management is done via the Mailinglist app. Penn's Listserv lists are managed through Penn's ISC listserv interface. **For Wharton mailing lists, we do not recommend using Penn's listserv interface as your list will no longer be in sync with Mailinglist app. If you edit your Wharton mailing list using the ISC interface, Wharton Computing will no longer be able to support your list.**

## Questions?
